IOSH Managing Safely®
Virtual Courses

In partnership with

Online Course for Front Line Leaders

Are those who manage & influence the health and safety agenda in your organisation aware of their responsibilities and adequately equipped with the essential knowledge to discharge their duties?

Health & Safety Capabilities & Training

Regulation 13 of The Management of Health and Safety at Work Regulations 1999 requires employers to provide all their staff with adequate training to enable them to fulfil their role safely¹. Nowhere in an organisation is this more important than for the front line Managers, Team Leaders & Supervisors who are expected to implement corporate policy and create a safe & healthy culture amongst the workforce.

Many organisations turn to the Institution of Occupational Safety and Health (IOSH) and their well-recognised Managing Safely® programme as the training standard to provide the comprehensive knowledge base needed to effectively manage this challenging workplace issue.

IOSH Approved Open Training Made Easy

RMP Risk Control (RC) have been a approved provider of the Managing Safely® programme for many years but for the first time we are offering this as a virtual course running over 6 x half day sessions, to enable candidates to join the learning from home or the workplace whilst keeping on top of the day job.

Another first for RC is that these will be "Open Courses" allowing delegates from a number of organisations to join, so if you don't have sufficient numbers of candidates to make an "In-House course" viable, the people that need it don't have to wait to access this important learning.

Providing the course virtually enables us to deliver the materials in more digestible chunks and creates a safe environment where delegates can ask questions in confidence and without risk of embarrassment. This is an ideal course for new or recently promoted staff to get up to speed with their peers and you won't even need to organise a training venue, just ensure the candidate has access to an internet enabled PC with a camera and microphone, provide us with their email address and we will take care of all the admin.

Objectives

Managing Safely® is designed to provide all managers with the confidence and enthusiasm to apply knowledge to the workplace to improve the health and safety standards. The content is divided into the following seven modules and is formally assessed by an end assessment and the production of a work based risk assessment project.

- Introduction
- Assessing risks.
- Controlling risks.
- Understanding responsibilities.
- Understanding hazards.
- Investigating incidents.
- Measuring performance

Who Should Attend

Line Managers & anyone with a responsibility for the Health & Safety of others.

Location

Your desk (via Cisco WebEx meeting platform)
